The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 26-54 are rejected under 35 U.S.C. 102(b) as being anticipated by Roy (US Patent 4,615,667).

Roy discloses a mold for making preforms comprising a first and second mold portion (67,68), the second mold portion comprising a plurality of mandrels positionable into the cavities of the first mold portion where a void is formed between the cavities and the mandrels. The mandrels are formed with a beryllium copper alloy to provide greater cooling at the tip. See column 7, lines 40-56 as well as Fig. 10.
